### DMOZ Listing

SEO experts and major search engines like Google, Yahoo and MSN agree on one thing - DMOZ is the best online directory ever existed. That is a bold claim but the truth is, these major search engines gave a lot more importance to sites that are listed in DMOZ. In fact, getting your site in DMOZ will dramatically increase the ranking and traffic of your website.

There are literally thousands of sites trying to get their way to DMOZ everyday, but only a handful of them will ever make it and are approved. One of the reasons why these sites failed was because they fail to comply with the DMOZ submission guidelines. Choosing the right category, title and description for your sites is one of the critical aspects before DMOZ will even consider your site to be featured in their directory.

BacklinksService specializes in DMOZ submission and so far has helped many of our clients to get the prized directory listing in DMOZ.

- We will research the relevant categories for your website.
- We will research and propose suitable and relevant titles for your website, which is consistent with the DMOZ submission guidelines
- We will research and propose the best description that follows the DMOZ guidelines.
- A screenshot of the submission process will be provided

Please understand that these procedures will only increase the chance of getting listed in DMOZ and does not guarantee inclusion in DMOZ directory.
