FAQ

Q: How long does it take?

A: The turn around time is 5-10 business days. This allows for payment to be processed, articles to be wrote and then submission starts.

Q: What happens whe the directory is not online?

A: We move on by that directory to another one.

Q: What is the approximate acceptance rate?

A: We are seen an average acceptance rate of 60% to 90%. We do not have any control over the acceptance rate as it is 100% up to the article directory owner to approve the articles. Our job is to distribute articles to these directories, and we can assure you we will.

Q: Will there be a report?

A: The best way to verify that your article has been submitted is to make a search for your article title in 2-3 weeks time after submission and you'll see the results for yourself, however we will send you a small report yes.

(Tip: Remember to enclose the title in double quotes when searching.)
